

The State Science and Engineering Fair (SSEF) of Florida, is only possible through many teachers, administrators, corporate members and the individuals who volunteer thousands of hours at all levels leading to this competition each year. The SSEF is administered by the Florida Foundation for Future Scientists at UCF and is a recognized non-profit 501c3. In order for this event to take place, we rely on many donations at all levels. To find out how you can support and donate to the SSEF, please contact Nancy Besley besleyn@ocps.net or visit our website at www.floridassef.net.

We take this opportunity to thank our many sponsors and award donors.
