

2010 SSEF Mortality Report

- *This form is required for all research involving vertebrate animals. This form must be completed at the conclusion of research even if no deaths occurred.*
- *In accordance with ISEF Rules no group or subgroup may exceed a 30% rate of mortality.*
- *Rate (%) of mortality = # of deaths / # of test subjects used x 100*
- *% Mortality must be calculated for each group, subgroup, and the total research population.*

Registrant's Name: _____
First Name Middle Initial Last Name Sr Title (Jr., II, etc)

Project Title: (must match ABSTRACT title)

Genus/Species Name: _____ Common Name: _____
R

Study Group Statistics: NUMBER Used NUMBER Deaths % Mortality

Control Group: _____ _____ _____

Experimental Factor: (No Exposure or Treatment)

Cause(s) of Death: _____

Study Group Statistics: NUMBER Used NUMBER Deaths % Mortality

Experimental Group #1 _____ _____ _____

Experimental Factor: _____

Cause(s) of Death: _____

Study Group Statistics: NUMBER Used NUMBER Deaths % Mortality

Experimental Group #2 _____ _____ _____

Experimental Factor: _____

Cause(s) of Death: _____

Study Group Statistics: NUMBER Used NUMBER Deaths % Mortality

Experimental Group #3 _____ _____ _____

Experimental Factor: _____

Cause(s) of Death: _____

TOTAL NUMBER USED: _____ **TOTAL DEATHS:** _____ **TOTAL % MORTALITY:** _____
