

Florida Foundation for Future Scientists

March 2010

Dear Senior,

Congratulations! You are a graduating senior this year, and your science research project entered in the 55th State Science and Engineering Fair of Florida (SSEF), entitles you to apply to be nominated for a scholarship.

Along with this letter you will find a **Scholarship Nomination Application Form** and a **Transcript Summary Form** for the scholarship nominations to be awarded at the SSEF this year. You must complete a separate application for each scholarship you are interested in pursuing. We also suggest you bring extras in case we have some last minute scholarships to offer. (Note: The application may be accessed at www.floridassef.com)

There must be an **original Transcript Summary Form with an official seal** for at least one of your applications (bring copies for the others). You will also find an application to further qualify you for the NASA and the Florida Engineering Society Opportunity Internships. Both Applications must be complete when you turn them in April 8th at the Scholarship/Opportunity Room. Please note that we are **unable** to allow you to FAX your school to get this information.

A word of caution! If you plan to apply for these scholarships and internships, see your guidance counselor AS SOON AS POSSIBLE! Do not wait until the day you leave for SSEF.

The Scholarship Committee looks forward to meeting you on April 8th at the Orange County Convention Center in Orlando. Meanwhile, if you have any questions, contact me at besleyn@ocps.net.

Sincerely,

Nancy A. Besley
FFFS Executive Director
