

Florida Foundation for Future Scientists

57th State Science and Engineering Fair of Florida

April 3rd – 5th, 2012

Lakeland Center, Lakeland

701 West Lime Street

Lakeland, FL 33815

www.thelakelandcenter.com

We are seeking more than 400 Judges in all areas of science to interview the talented students of Florida on their scientific research projects for 2012. We hope that you and your organization will provide the time and expertise we need to provide high-quality face-to-face judging for this prestigious competition – the largest academic competition in the state of Florida. Our Florida students continue to excel at the Intel International Science and Engineering Fair each year by winning more Place and Special Awards than any other state.

We have two levels of competition – middle school students in grades 6 – 8 and our high school students in grades 9 – 12. These students have already won at their Regional Fairs throughout the state of Florida. There are 13 categories to choose from (Teams will now be included in the categories for Judging). The descriptions of these categories may be found at www.floridassef.net under Judging.

Please register to join us on **WEDNESDAY, APRIL 4TH, from 8:30 AM until 5:00 PM** for Judging. This will be an experience you will never forget as you interview students demonstrating outstanding innovation and creativity – soon to be part of our future workforce.

You may view the Judging Schedule and our Judging Policies and Procedures at www.floridassef.net. You will receive a confirmation after registering so please, please mark your calendar for this important event! As we get closer to March you will receive updates on your judging expectations and parking information.

If you know of any other contacts for Judging, please forward this and/or send me the information at nbesley@floridassef.net. Thank you and I look forward to seeing you **WEDNESDAY, April 4th** at the Lakeland Center, Lakeland.
